Financial Policy Agreement

As a courtesy to our patients, Flores Eye Care Clinic offers to bill insurance companies on your behalf. Please understand that having insurance is not a guarantee of payment. We strive to verify benefits prior to your visit so that we may explain the coverage your policy offers and what your requirements are. However, it is ultimately the patient's responsibility to pay 100% of any balance not covered by insurance. Deductibles, co-payments, or co-insurances are the patient's responsibility and must be paid at the time services are rendered. You will aid us in not billing **YOU** by kindly replying to insurance information requests in a timely manner. I authorize Flores Eye Care Clinic to release medical and personal information to third party insurance carriers for the purpose of filing insurance claims related to my care. I further authorize Flores Eye Care Clinic to receive payment from my insurance carrier(s) for those services received from the clinic and/or its designees.

One of the most important parts of your eye exam today is the refraction. That is the part of the exam by which we determine whether you can be helped in any way by a new glasses prescription. It is also how we determine the best possible visual acuity and function of your eye, which is essential medical information for us to have as we assess your eyes and look for problems. **It is NOT a covered service by Medicare and many other insurance plans.** These plans consider refraction a "vision" service not a "medical" service. Our office fee for refraction is \$30.00. A contact lens exam is separate from the annual eye exam, because there are unique procedures used only on contact lens wearers. Our office fee for contact lens evaluation is \$50.00. Unless your plan automatically covers the refraction charge and/or the contact lens charge; the fees are collected at the time of service in addition to any co-payment your plan may require. Should your plan pay us for either service, we will reimburse you accordingly. The patient's own insurance makes refraction a non-covered service. Most insurance companies take the position that if your vision can be corrected with glasses, then contacts are not medically necessary and therefore are not covered. **"We don't make the rules, but we all have to live with them."**

I have read the above information and understand that the refraction and contact lens evaluation is a non-covered service. I accept full financial responsibility for the cost of this service and understand it is due at time of service. I understand that any co-payment, co-insurance or deductible I may have are separate from and not included in the refraction fee and contact lens evaluation. I further understand that any refraction and/or co-pay charges must be paid in order for my eyeglass prescription to be released.
